

CREATING NEW HORIZONS IN OFFSHORE ENERGY

OUR VERSATILE OFFSHORE FLEET

Boskalis operates one of the largest fleets of specialized offshore vessels in the world, able to meet specific project requirements.

11 SEMI-SUBMERSIBLE HEAVY TRANSPORT VESSELS

2 HEAVY LIFT VESSELS

3 CABLE-LAYING VESSELS

5 DIVING SUPPORT VESSELS

2 SEMI-SUBMERSIBLE OCEANGOING BARGES

4 FLOATING SHEERLEG CRANES

13 OCEAN TOWAGE TUGS

14 ANCHOR HANDLING TUGS

7 CONSTRUCTION SUPPORT VESSELS

3 SUBSEA ROCK INSTALLATION VESSELS

17 SURVEY VESSELS

VARIOUS OFFSHORE VESSELS AND EQUIPMENT

OUR SERVICES IN THE OFFSHORE ENERGY PROJECT LIFE CYCLE

We offer a unique range of offshore services to the international energy sector - oil, gas and renewables.

We are involved in the development, construction, transportation, installation, inspection, repair and maintenance (IRM), and decommissioning of offshore and onshore energy production facilities. Furthermore we contribute to climate change mitigation by expanding access to renewable power and facilitating the energy transition by developing infrastructure to deliver affordable and clean energy.

MARINE SURVEY

- Marine Geotechnical Surveys
- Marine Geophysical Surveys
- Marine Environmental Surveys
- UXO survey

SEABED INTERVENTION

- Subsea rock installation
- Landfall construction
- Terminal development
- Gravity based structure installation

HEAVY MARINE TRANSPORT

- Production facility transportation
- Drilling rig transportation
- Module transportation for onshore facilities
- Transportation of offshore wind farm components
- Float-over installation

MARINE SERVICES

- Anchor handling
- Ocean tows
- Positioning services
- Floating facility installation

OFFSHORE HEAVY LIFTING

- Wind turbine foundation installation
- Substation installation
- Oil & gas facility installation and decommissioning

SUBSEA CABLES

- Subsea power cable installation
- Cable burial and protection
- Cable repairs

SUBSEA SERVICES

- Inspection, repair and maintenance (IRM)
- Construction
- Decommissioning

BOSKALIS CREATES NEW HORIZONS

Boskalis creates new horizons for all its stakeholders. As a leading global dredging and offshore contractor we offer a unique combination of experts, vessels and services. While maintaining the highest safety and sustainability standards, we provide innovative and competitive integrated solutions to our clients in the offshore energy sector, ports, and coastal and delta regions of the world.

For the offshore energy sector we offer a wide variety of maritime services and contracting. These include the development, construction, transport, installation, inspection, repair & maintenance (IRM) and decommissioning of offshore and onshore energy production facilities. With these activities we create and protect prosperity and advance the energy transition.

130 

MAKING THE ENERGY TRANSITION HAPPEN

Boskalis has a leading role in the offshore wind market, making a unique contribution to the global energy transition. With our unparalleled range of activities we were involved in the realization of more than 130 offshore wind farms.
